OVERVIEW

A military flying activity is being conducted from Singleton Military Area from 28 September – **17 October** 2020. Temporary Restricted Area (TRA) will be established to ensure the safety of civilian and military air traffic.

The activity will be conducted by day at the Single Military Area with a combination of military flying and non-flying activity. Expected timings of activation for TRA Dagger are 1000z – 0300z (0800 – 1700L); however, pilots should monitor NOTAMs for accurate timings.

The conditional status of TRA Dagger is RA2, in which pilots must not flight plan through the Restricted Area unless under agreement with Defence; however a clearance is not assured.

The military controlling authority will be FLTCDR 453SQN Williamtown and will only provide an Air Traffic Service (ATS) for civilian aircraft with a declared emergency, radio failure or participating in activities for the preservation of life or property (SAR, MEDEVAC, POL or FFR).

PROPOSAL

4 Squadron is seeking feedback no later than 7th Sep 2020 on the proposed TRA as depicted in Figures 1 and 2.
